

US Serial No.: 10/649,498

REMARKS

The specification has been amended to include suggested Specification headings. The appropriate cross-reference to related applications is supplied.

The specification is objected to as failing to provide proper antecedent basis for the defroster nozzle recited in claims 2 and 4. Applicants direct the Examiner to page 3, lines 24-27 and page 4, lines 5-9 which introduce and discuss the defroster nozzle 5. Claim 2 is amended to change "the defroster nozzle" to "a defroster nozzle" since it has no antecedent basis within the claim.

Claims 1-4 are currently pending. Claims 1 and 3 are rejected. Claims 2 and 4 would be allowable if rewritten to overcome the 112 rejection and to include all of the limitations of the base claim. Claim 2 is amended accordingly. Claim 4 depends on claim 2. Accordingly, the Examiner is respectfully requested to pass this application to issue.

Respectfully submitted,
